

*Next fall, I plan to attend Saint Louis University to study Health Sciences as well as Local and Global Social Justice. I will work towards becoming a future pediatrician as well as furthering my current work with social justice. The scholarship funds will go towards helping me pay for my tuition and room and board fees. Through these funds, I plan to extensively focus on my studies rather than stressing about financing the cost of my education. I am ever so grateful for this opportunity and truly appreciate the aid I am receiving.*
