

*Currently, I plan to attend Truman State University to obtain my Bachelor of Arts degree in Business Administration with concentrations in Finance and International Business with a minor in Communication. Afterwards, I plan to either obtain my Master of Business Administration or attend law school. Ultimately, my goal is to lead the finance department of a large cooperation, specifically one with international partners where I will have the opportunity to travel. I want to thank the 2018-2019 Braxton Rethwisch Scholarship committee from the bottom of my heart for providing me with a generous amount of money to put towards the fees of my education at Truman State University and towards purchasing books and a laptop. Because of your scholarship, a burden was lifted off of my family.*
